

VendorFlow Demo Video Script

Duration: 5-5.5 Minutes

INTRO (0:00 - 0:30)

[SCREEN: App logo / Landing page]

NARRATOR:

"If you're a local vendor - a water purifier technician, an AC service provider, or any service-based business - you know the biggest challenge isn't the work itself. It's remembering every customer, every warranty, every service date.

One forgotten reminder means one lost customer.

Today, I'll show you VendorFlow - the app that makes sure you never miss a service call, never lose track of warranties, and capture 100% of your maintenance revenue.

Let's dive in."

SECTION 1: LOGIN & DASHBOARD (0:30 - 1:00)

[SCREEN: Login page]

NARRATOR:

"Getting started is simple. Just your username and a 5-digit PIN. No complex passwords to remember."

[ACTION: Type credentials and login]

NARRATOR:

"And here's your dashboard - your business command center."

[SCREEN: Dashboard]

NARRATOR:

"Right at the top, you see today's sales - Rs. 12,500 from 3 sales. Below that, quick action buttons to create a new sale or add a transaction.

And here's what makes VendorFlow special - everything you need is just one tap away: Inventory, Sales, Customers, Expenses, Reminders, and Settings."

SECTION 2: CREATING A SALE WITH WARRANTY (1:00 - 2:00)

[SCREEN: Click on "New Sale"]

NARRATOR:

"Let me show you the most powerful feature - creating a sale with automatic warranty and maintenance tracking."

[ACTION: Click "New Sale" button]

[SCREEN: Sale creation page]

NARRATOR:

"First, I select or add a customer. Let's pick Sharma ji."

[ACTION: Search and select customer]

NARRATOR:

"Now I add the items. Let's say he's buying a new RO Water Purifier."

[ACTION: Search and add item]

NARRATOR:

"Here's the magic. For each item, I can set:

- Warranty period - let's say 2 years
- Service interval - every 3 months

This means the system will automatically remind me to call Sharma ji every 3 months for service."

[ACTION: Set warranty to 2 years, service interval to 3 months]

NARRATOR:

"I can add a discount - maybe 500 rupees off with description 'Festival Offer'."

[ACTION: Add discount]

NARRATOR:

"Select payment method - UPI payment received. And... done!"

[ACTION: Complete sale]

[SCREEN: Bill generated]

NARRATOR:

"Instantly, the bill is generated with a unique number. I can share this directly to the customer's WhatsApp, or they can view it using this public link. Professional, paperless, and permanent."

SECTION 3: REMINDERS - THE GAME CHANGER (2:00 - 2:45)

[SCREEN: Navigate to Reminders tab]

NARRATOR:

"Now, let's see the feature that will literally make you more money - the Reminders tab."

[ACTION: Click on Reminders in bottom nav]

[SCREEN: Reminders page with tabs]

NARRATOR:

"Look at this. Four tabs: Overdue, Today, Upcoming, and Done."

Overdue shows customers who missed their service date - these need immediate attention.

Today shows who needs to be contacted right now.

Upcoming shows what's coming in the next few days and weeks.

And Done shows completed services."

[ACTION: Click on a reminder card]

NARRATOR:

"Each reminder shows the customer name, the item, and when service is due.

Now watch this..."

[ACTION: Click "Send Reminder" button]

NARRATOR:

"One tap, and WhatsApp opens with a professionally written message:

'Dear Customer, your RO water purifier is due for servicing on 15th January. Regular maintenance ensures pure drinking water for your family's health. Reply 1 to Confirm.'

The customer sees a professional message, they reply, you schedule the visit. Revenue captured."

[SCREEN: Show WhatsApp preview]

NARRATOR:

"For overdue customers, the message is more urgent - emphasizing health risks. This actually gets them to respond."

SECTION 4: CUSTOMER WARRANTY TRACKING (2:45 - 3:15)

[SCREEN: Navigate to Customers]

NARRATOR:

"Now let's say a customer calls and asks - 'Is my RO still under warranty?' Watch how fast you can answer."

[ACTION: Click on Customers, search for a customer]

[SCREEN: Customer detail page]

NARRATOR:

"Click on Sharma ji... and here's everything:

- Total purchases: 3 items
- Total spent: Rs. 45,000
- And most importantly - Warranty Status for each item"

[ACTION: Scroll to warranty section]

NARRATOR:

"Green badge - 18 months warranty left. Yellow badge - warranty expiring in 25 days. Red badge - expired.

You tell the customer 'Yes sir, 18 months warranty remaining' in 2 seconds. That's professionalism. That's trust."

SECTION 5: INVENTORY & SMART ALERTS (3:15 - 3:45)

[SCREEN: Navigate to Inventory]

NARRATOR:

"Running out of stock at the wrong time? Never again."

[ACTION: Show inventory list]

NARRATOR:

"Your complete inventory with current stock, pricing, and categories. See this red badge? That's a low stock alert - only 2 filters left, minimum is 5.

The dashboard shows these alerts too. You know exactly what to order, before you run out."

[SCREEN: Show low stock on dashboard]

NARRATOR:

"And here's the exciting part - after 3-4 months of using VendorFlow, the system learns your patterns. It starts recommending:

- 'You sold 15 filters last month, reorder now'
- 'RO membranes typically run out every 45 days'
- 'Seasonal trend: AC filter sales increase in April'

Your inventory practically manages itself."

SECTION 6: MONEY & EXPENSES (3:45 - 4:00)

[SCREEN: Navigate to Money/Transactions tab]

NARRATOR:

"At the end of the day, it's all about the money. The Money tab shows everything in one place."

[ACTION: Show transactions list]

NARRATOR:

"Green for income, red for expenses. Filter by account - Cash, Bank, UPI. See your totals at the top.

Add an expense - rent, transport, supplies - and it's tracked. Click any transaction to edit or see details."

SECTION 7: ANALYTICS - YOUR BUSINESS INTELLIGENCE (4:00 - 4:45)

[SCREEN: Navigate to Analytics from home page]

NARRATOR:

"Now let me show you the Analytics page - this is where you get the complete picture of your business."

[ACTION: Click on Analytics card]

[SCREEN: Analytics page with period selector]

NARRATOR:

"First, choose your time period - Last 12 Months, This Year, or All Time. One tap to switch."

[ACTION: Show period selector]

NARRATOR:

"At the top, three key numbers: Total Income, Total Expenses, and Net Profit. Your business health at a glance."

[SCREEN: Scroll to Monthly Breakdown]

NARRATOR:

"Below that, a month-by-month breakdown. See exactly how each month performed - income, expenses, net profit. Green means you're making money, red means you need to cut costs."

[ACTION: Show table with month data]

[SCREEN: Maintenance Services Chart]

NARRATOR:

"This chart shows your maintenance services completed each month. Track your service business growth over time."

[SCREEN: Scroll to Restock Recommendations]

NARRATOR:

"Here's where it gets smart. After a few months of sales data, VendorFlow analyzes your patterns and shows Restock Recommendations."

[ACTION: Point to recommendation items]

NARRATOR:

"It tells you: 'This item sells 8 units per month, you have 2 left - order 15 units.' See the Top Seller badge? That's your best-moving inventory. Low Stock warning? Order immediately."

No more guessing. Data-driven decisions."

[SCREEN: Profit Margin Analysis]

NARRATOR:

"And finally, Profit Analysis. See your top earners - items making you the most money. Best margins on the left, items needing price review on the right.

Now you know exactly which products to push and which to reconsider."

SECTION 8: WHATSAPP INTEGRATION SUMMARY (4:45 - 5:00)

[SCREEN: Show WhatsApp messages being sent]

NARRATOR:

"Remember, every customer interaction can go through WhatsApp:

- Maintenance reminders - one tap
- Overdue follow-ups - urgent and effective
- Professional bills - shareable links
- Payment reminders - polite but firm

All messages are health-focused, professional, and designed to get responses. Your customers will actually reply."

CLOSING (5:00 - 5:30)

[SCREEN: Dashboard overview]

NARRATOR:

"Let's recap what VendorFlow gives you:

One - Automatic maintenance reminders. Never miss a service call.

Two - Per-item warranty tracking. Instant answers for customers.

Three - Smart inventory with low stock alerts.

Four - Professional WhatsApp communication. One tap sends.

Five - Complete financial tracking. Know your profit.

Six - Digital bills. Shareable, professional, permanent.

Seven - Powerful Analytics with restock recommendations and profit analysis.

This is how you capture 100% of your maintenance revenue. This is how you make data-driven business decisions.

This is VendorFlow."

[SCREEN: App logo with tagline]

NARRATOR:

"VendorFlow. Your Business. Your Control. Your Growth.

Download now and start capturing every rupee you're currently losing."

END CARD (5:00)

[SCREEN: Contact info / QR code / Download link]

TEXT ON SCREEN:

- "Start Your Free Trial"
- "Questions? WhatsApp us at [number]"
- "www.vendorflow.app"

VIDEO PRODUCTION NOTES

Recommended Visuals:

1. **Screen recordings** - Use actual app with sample data
2. **Smooth transitions** - Fade between sections
3. **Highlight circles/arrows** - Point to important features
4. **Split screen** - Show phone and WhatsApp side by side for messaging demo

Audio Notes:

- 1. **Background music** - Upbeat but not distracting
- 2. **Narrator voice** - Friendly, conversational, confident
- 3. **Sound effects** - Subtle clicks for button taps

Timing Breakdown:

Section	Duration	Cumulative
Intro	30 sec	0:30
Login & Dashboard	30 sec	1:00
Creating Sale	60 sec	2:00
Reminders	45 sec	2:45
Customer Warranty	30 sec	3:15
Inventory	30 sec	3:45
Money & Expenses	15 sec	4:00
Analytics	45 sec	4:45
WhatsApp Summary	15 sec	5:00
Closing	30 sec	5:30

Sample Data to Prepare:

- 1. **Customers:** Sharma ji, Gupta family, Patel Electronics
- 2. **Products:** RO Water Purifier, Carbon Filter, RO Membrane, UV Chamber
- 3. **Reminders:** Mix of overdue, today, upcoming across customers
- 4. **Transactions:** Week's worth of sales and expenses
- 5. **Low stock items:** 2-3 items below minimum threshold

Key Messages to Emphasize:

- 1. "Never miss a service call" - repeat 2-3 times

2. "100% maintenance revenue" - the core value prop
3. "One tap" - emphasize simplicity
4. "Professional" - for customer communication
5. "Data-driven decisions" - for Analytics section
6. "Know your profit margins" - Analytics insight
7. "Smart restock recommendations" - AI-powered inventory

ALTERNATIVE: SHORT 60-SECOND VERSION

For social media / ads:

[0-10 sec]

"You sold an RO 6 months ago. Forgot the service call. Customer called someone else. That's Rs. 3,500 lost. Multiply by 50 customers..."

[10-30 sec]

"VendorFlow remembers every customer, every warranty, every service date. Automatic reminders. One tap WhatsApp. Professional bills. Complete tracking."

[30-50 sec]

Quick cuts showing:

- Sale creation with warranty
- Reminder notification
- WhatsApp message sending
- Customer warranty status
- Dashboard with earnings

[50-60 sec]

"Stop losing money. Start using VendorFlow. Download now."

DEMO WALKTHROUGH CHECKLIST

Before recording, ensure you have:

- ☐ Sample vendor account with data
- ☐ 10+ customers with purchase history
- ☐ 20+ inventory items across categories
- ☐ Mix of reminders (overdue, today, upcoming, done)
- ☐ Week's worth of transactions
- ☐ Low stock alerts active
- ☐ Clean phone screen (no notifications)
- ☐ Good lighting for screen recording
- ☐ Stable internet for WhatsApp demo

Script Version 1.0 - Ready for review and recording
